## **Conclusion:**

- Pass Rate: 0%
  - Critical issues such as invalid login credentials and team creation failure must be addressed immediately.
  - UI/UX issues in footer navigation and other input validation problems significantly impact usability.
- 

## **Actions Required**

### **1. Resolve Critical Bugs:**

- Fix invalid login behavior.
- Address team creation and profile icon functionality.

### **2. Enhance UI/UX:**

- Correct footer link navigation.
- Improve error handling for task fields and other inputs.

### **3. Re-Test All Failed Test Cases:**

- Once issues are resolved, re-test to ensure all functionalities work as expected.

### **4. Update Documentation:**

- Ensure all resolved issues are reflected in the bug tracker and retest logs.
